## Information Technology Department

### "Workshop on MVC Framework Basics + Advanced"

I.T. department have organized a 2 days workshop on " MVC Framework Basics + Advanced " for L.Y.I.T. students on 14, 15 July, 2016 by Krunal Trivedi, Microsoft Certified Trainer, MCT Regional Lead, India.

The First day session covered with Introduction of MVC Framework, Understanding of Model-view controller, view Bag-view data-temp data, Data entry and validation, Entity framework, routing, caching with MVC. The second day includes Partial view in MVC, mobile template with MVC, web API and Hosting on Azure.

This workshop is organized successfully and our LYIT students benefited with this knowledgeable session which will be helpful them to IDP/UDP projects and in future also.
