

**SARDAR VALLABHBHAI PATEL INSTITUTE OF TECHNOLOGY  
INFORMATION TECHNOLOGY DEPARTMENT  
ACADEMIC YEAR 2019-2020**

**IDP/UDP PROJECT EVALUATION REPORT**

Information Technology department of Sardar Vallabhbhai Patel institute of technology- VASAD affiliated to Gujarat Technological University was arranged final year students IDP/UDP Project evaluation on 05-10-2019. We invite industry experts from Vadodara and Ahmedabad who have more than 8 years of experience in their field. From department level, 53 student groups presented their work in front of them.

We provide the assessment guidelines to the invitees as per GTU scheme. We also conveyed their assessment helps us to filter out good projects for Project Competition like Devang Mehta and other competitive areas. After evaluation by experts of all groups, following observation had been carried out from their side.

### **Observation of Experts during evaluation**

After the evaluation of the projects experts gave following comments:

1. 40% of project groups have excellent understanding of domain and implemented successfully.
2. 30% of project groups had proper domain understanding but implementation part is not satisfactory.

The remaining groups had very basic understanding about their domain.

### **Action taken by the department**

1. Staff meeting was arranged by project coordinators and Head of department with the internal faculty guide.
2. Distribution of detailed report mentioning the feedback of respective group (Evaluation report by experts) was done among the respective faculty guide.
3. Internal faculty will take time line chart from their allotted group to complete the project on time.

## **Concluding meeting with Expert**

As some of the students are not clear about their work so we discuss with industry expert to give an expert talk/work shop for the following important component for IDP/UDP.

1. Importance of SRS Documentation in Software development.
2. Integration of machine learning with real time android application.
