

E & C Department has organizing an Expert talk for the students of FY, SY and TY on 28th June 2023 on the topic Recent Trends and Opportunities in Electronics & Communication Engineering. Our expert Aman Chawda is serving at esteemed company Numerator as Process Trainer.

Main points discussed

1. Advancements in electronics lead to some of the best innovations in the world. 5MB chip by IBM was transported via truck in 1960s & now we have 1 TB memory card in our mobile phones.
2. Microelectronics was, is & will be the future of technological advancements
3. Merging electronics with other engineering can create wonders
4. Never ending scope of electronics & Government of India's mission on becoming Atmanirbhar Electronic Hub of the world.
5. Key projects & Investments of Global companies in India around manufacturing of electronics goods & semiconductor chips.
6. Boom of Startup ecosystem around the technical sectors
7. Versatility & Interoperability of Electronics & Communication Engineering students with other branches like Mechanical, Electrical, Computer/IT, etc.
